Cautionary Statement

Forward-looking Statements

This presentation includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 based on information currently available to management. Such statements are subject to certain risks and uncertainties and readers are cautioned not to place undue reliance on these forward-looking statements. These statements include declarations regarding management’s intents, beliefs and current expectations. These statements typically contain, but are not limited to, the terms “anticipate,” “potential,” “expect,” “forecast,” “target,” “will,” “intend,” “believe,” “project,” “estimate,” “plan” and similar words. Forward-looking statements involve estimates, assumptions, known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements, which may include the following: the effectiveness of our ongoing discussions with the U.S. Attorney’s Office of the S.D. Ohio to resolve its investigation with respect to us; the results of the internal investigation and evaluation of our controls framework and remediation of our material weakness in internal control over financial reporting; the risks and uncertainties associated with government investigations regarding Ohio House Bill 6 and related matters including potential adverse impacts on federal or state regulatory matters including, but not limited to, matters relating to rates; the potential of non-compliance with debt covenants in our credit facilities due to matters associated with the government investigations regarding Ohio House Bill 6 and related matters; the risks and uncertainties associated with litigation, arbitration, mediation and similar proceedings; legislative and regulatory developments, including, but not limited to, matters related to rates, compliance and enforcement activity; the ability to accomplish or realize anticipated benefits from strategic and financial goals, including, but not limited to, maintaining financial flexibility, overcoming current uncertainties and challenges associated with the ongoing government investigations, executing our transmission and distribution investment plans, greenhouse gas reduction goals, controlling costs, improving our credit metrics, strengthening our balance sheet and growing earnings; economic and weather conditions affecting future operating results, such as a recession, significant weather events and other natural disasters, and associated regulatory events or actions in response to such conditions; mitigating exposure for remedial activities associated with retired and formerly owned electric generation assets; the ability to access the public securities and other capital and credit markets in accordance with our financial plans, the cost of such capital and overall condition of the capital and credit markets affecting us, including the increasing number of financial institutions evaluating the impact of climate change on their investment decisions; the extent and duration of COVID-19 and the impacts to our business, operations and financial condition resulting from the outbreak of COVID-19 including, but not limited to, disruption of businesses in our territories, volatile capital and credit markets, legislative and regulatory actions, including the vaccine’s efficacy and the effectiveness of its distribution; the effectiveness of our pandemic and business continuity plans, the precautionary measures we are taking on behalf of our customers, contractors and employees, our customers’ ability to make their utility payment and the potential for supply-chain disruptions; actions that may be taken by credit rating agencies that could negatively affect either our access to or terms of financing or our financial condition and liquidity; changes in assumptions regarding economic conditions within our territories, the reliability of our transmission and distribution system, or the availability of capital or other resources supporting identified transmission and distribution investment opportunities; changes in customers’ demand for power, including, but not limited to, the impact of climate change or energy efficiency and peak load reduction mandates; changes in national and regional economic conditions affecting us and/or our major industrial and commercial customers or others with which we do business; the risks associated with cyber-attacks and other disruptions to our information technology system, which may compromise our operations, and data security breaches of sensitive data, intellectual property and proprietary or personally identifiable information; the ability to comply with applicable reliability standards and energy efficiency and peak load reduction mandates; changes to environmental laws and regulations, including, but not limited to, those related to climate change; changing market conditions affecting the measurement of certain liabilities and the value of assets held in our pension trusts and other trust funds, or causing us to make contributions sooner, or in amounts that are larger, than currently anticipated; labor disruptions by our unionized workforce; changes to significant accounting policies; any changes in tax laws or regulations, or adverse tax audit results or rulings; and the risks and other factors discussed from time to time in our SEC filings. Dividends declared from time to time on FirstEnergy Corp.’s common stock during any period may in the aggregate vary from prior periods due to circumstances considered by FirstEnergy Corp.’s Board of Directors at the time of the actual declarations. A security rating is not a recommendation to buy or hold securities and is subject to revision or withdrawal at any time by the assigning rating agency. Each rating should be evaluated independently of any other rating. These forward-looking statements are also qualified by, and should be read together with, the risk factors included in FirstEnergy Corp.’s filings with the SEC, including but not limited to the most recent Annual Report on Form 10-K and any subsequent Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. The foregoing review of factors also should not be construed as exhaustive. New factors emerge from time to time, and it is not possible for management to predict all such factors, nor assess the impact of any such factor on FirstEnergy Corp.’s business or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statements. FirstEnergy Corp. expressly disclaims any obligation to update or revise, except as required by law, any forward-looking statements contained herein or in the information incorporated by reference as a result of new information, future events or otherwise.

## ESG: Climate Story

### Climate Position

**We believe** that climate change is among the most important issues of our time, and we’re committed to doing our part to ensure a bright and sustainable future for the communities we serve.

### Climate Strategy

**Protecting and enhancing** our transmission system to enable a clean-energy and carbon-neutral future

**Building a technologically advanced distribution platform** that improves grid reliability and resiliency, while also enabling our company and customers to support a carbon-neutral economy.

**Being innovative and forward thinking** with our coal generation fleet as we explore near-term opportunities to reduce emissions, incorporate renewable resources and implement emerging technologies.

### GHG Reduction Goal

**Plan to achieve carbon neutrality by 2050**

**Target an interim 30% reduction in companywide GHG emissions by 2030**, based on 2019 levels.
FirstEnergy’s Carbon Reduction Goals – Past & Future

Enhanced GHG Goals (set 2020)

- New goals represent a significant expansion of prior CO₂ goal
- 2019 baseline reflects FE’s transformation to a fully regulated utility
- In alignment with Paris Agreement

Initial CO₂ Goal (set 2015)

90% reduction by 2045, based on 2005 baseline

At YE 2019, achieved 80% reduction

- Retired 5,950 MW of fossil fuel capacity
- Sold 1,931 MW of fossil fuel capacity
- Deconsolidated competitive portfolio
- Lower generation output due to market conditions

- Focus on increasing transparency through our D&I monthly leadership metrics and addition of a semi-annual report
- D&I Priority cascaded to all employees to create shared ownership
- Continued education for leaders to have inclusive conversations
Executive Compensation
Key Executive Compensation Highlights

In 2018, we made substantial changes to our compensation program as a result of shareholder feedback and maintained the same general structure and design. These changes helped to drive strong Say-on-Pay votes.

- Maintained the FE LTIP since it was re-designed in 2018, which includes a relative TSR modifier and a TSR cap.
- Linked our compensation programs to key drivers of shareholder value.
- Continued to focus on 100% performance-based long-term incentives while maintaining three-year performance goals.
- In 2019, modified the Executive Compensation Recoupment Policy (Clawback Policy) to cover detrimental activity, including reputational harm.
- For 2021, we made a few modifications to our incentive compensation programs
  - For the FE STIP, we added an ethics and compliance negative individual modifier for non-bargaining employees as well as a new financial KPI centered around FirstEnergy’s cash flow.
  - For the FE LTIP, the relative TSR modifier will adjust final LTIP payouts by up to 25%, plus or minus, based on the performance of our stock compared to our utility peers between the 25th and 85th percentiles (previously was 75th percentile). Consistent with market practices, the threshold payout is 25% of target with the maximum payout remaining at 200%.

Compliance Focus Areas

Governance

(Management Commitment; Autonomy and Resources; Accountability)

- Appointed new senior leaders with unwavering commitment to integrity: CEO, Chief Legal Officer, Chief Ethics and Compliance Officer (CECO), and Vice Chair of the Board and Executive Director
- Established the Compliance Oversight Subcommittee of the Audit Committee to oversee, with the Board, the assessment of improvements in FE’s compliance program
- Established an Executive Director role of the Board to oversee the management team’s execution of FE’s strategic initiatives, engage with external stakeholders, and support development of enhanced controls & governance policies and procedures
- Incorporated compliance into performance goals and metrics
- Paused disbursements from the Political Action Committee (PAC)
- Included efforts to integrate the Ethics and Compliance Program and Culture into the FE Forward project, which seeks to transform the Company as a whole
- Implemented the interim guidelines to clarify policies and procedures around lobbying activities on behalf of the Company and political contributions or contributions to special entities
- Leveraging recent compliance and ethics issue to embed a culture of integrity analogous to the Company’s long-term, successful efforts to embed a robust safety culture into its operating norms
- Centralizing ethics and compliance organization under CECO’s leadership
- Developing a more mature ecosystem of internal policies to govern significant risk areas and establish clear roles and responsibilities to ensure accountability
- Enhancing policies to govern risks associated with, for example, insider trading, gifts and entertainment, political and charitable donations, vendor contracting, financial controls, and signature authority
- Consolidating the Code of Business Conduct, policies, and other compliance resources into a central repository that is accessible and easy to navigate
- Establishing formal protocols for escalating issues to the Board on high-risk issues, such as political contributions, ethics or conduct violations by senior management, or issues with potential for significant adverse financial impact
- Creating a process whereby significant disciplinary action resulting from misconduct or non-compliance is reviewed by a group representing, at least, HR, Ethics and Compliance and Legal to ensure consistent and fair treatment

Risk Management

(Testing and Continuous Improvement)

- Compliance Subcommittee of the Board conducted a holistic assessment of FE’s compliance program
- Compliance Subcommittee of the Board is reviewing key compliance risk areas and related controls for improvement, including political engagement and third-party suppliers
- Engaged in remediation and restitution to ratepayers:
  - Proactively settled with Ohio AG to forego $105M from ratepayers in 2021 pursuant to the decoupling provisions in HB 6
  - Agreed to refrain from collecting lost distribution revenue estimated to be ~$85M in 2020 alone
  - Agreed to refund ratepayers ~$27M in decoupling revenue, plus interest, it collected since February of 2020
  - Working with the state regulators to return funds to ratepayers that were improperly included in customer rates
- Removing the Risk Management function from the internal audit reporting structure, creating a separate Risk Management Department, and revising several policies
- Developing a Compliance Risk Management program to provide reasonable assurance of adequate oversight/management of compliance risks by establishing, at least, a compliance risk register, risk owners and compliance risk mitigation strategies, as appropriate
- Conducting regular audits and capitalizing on data analytics on payment processing to confirm appropriate payment approval processes and compliance with supply chain contracting requirements
- Capitalizing on IT configuration changes to ensure compliance with policies, including payment processing and supply change contracting requirements
- Identifying clear accountability for overseeing the implementation of recommendations identified through risk assessments
- Engaging independent third-party to conduct assessments of risks, ethics and compliance program and culture on a periodic basis
Compliance Focus Areas

Training and Communications
- Held event where Board Chair and Subcommittee Chair addressed FE’s top 140 leaders specifically on expectations to act with integrity in everything we do. Conducted up-the-ladder training of the Legal Department.
- Addition of the Code of Business Conduct training to the new employee onboarding process and third-party onboarding process.
- Planned town hall meeting with all employees and senior leadership team (including new CEO, CLO and CECO) to reinforce integrity is integral to Company’s values and success.
- Implementing a more robust, mature and contemporary approach to training employees on ethics and compliance to ensure consistent understanding and implementation of expectations.
- Conducting training on payment processing policies, requirements, and limitations of signature authority.
- Establishing formal, planned cadence of compliance communications anchored around relevant risks to ensure employee awareness of the ethics and compliance program, expectations, consequences of non-compliance and resources for help.
- Engaging in regular communications with employees by leadership to reinforce that integrity, like safety, is core to everything we do.
- Ensuring Company values and expectations are more deliberately highlighted and discussed in communications with all employees.
- Additional publication of whom to contact in the event of compliance or ethics concerns.
- Requiring certain vendors, consultants, suppliers, and other third-parties to participate in compliance training that is tailored to their compliance risks.
- Publicizing anonymized disciplinary actions, as well as ethics and compliance-related rewards.

Concern Management (Confidential Reporting and Investigations) Continued
- Encouraging good faith reporting of misconduct, emphasizing the value of good-faith reporting and avoiding creating the impression that employees should ever refrain from reporting.
- Implementing procedures and training for managers related to best practices for responding to allegations of misconduct that they receive, including how to formally document and escalate “such allegations” to appropriate channels including to the CECO.
- Formally establishing clear and detailed standards and procedures for investigating all reports, including those made through the helpline and from other sources including directly to a supervisor.
- Refining the process for collecting, tracking, analyzing, and using information from reporting mechanisms to identify patterns of misconduct. Providing metrics on reporting and corrective actions to the Executive Council and Board.

Third-Party Management
- Drastically reduced lobbying activities and stopped corporate political contributions.
- Suspended and/or terminated various political/consultant relationships.
- Ceasing all political contributions to known 501(c)(4) organizations and implementing processes and controls governing political participation activities.
- Enhancing processes and controls around vendors that interact with prominent political figures on the Company’s behalf or are affiliated with a prominent political figure.
- Creating a vendor code of conduct that will be incorporated by reference into the Company’s commercial standard terms and conditions.
- Establishing formal and centralized policies, procedures, and controls to ensure third-party due diligence is conducted.
- Augmenting conflicts of interest policies and procedures as they relate to third-party vendors to explain clearly to employees what constitutes a conflict and what their reporting obligations are.
- Monitoring vendor relationships to confirm they are performing services contracted.
- Training employees to scrutinize invoices for indicia of fraud.
- Periodically requiring consultants and lobbyists to certify, in writing, that they have complied with all applicable laws and regulations, as well as FirstEnergy policies, with respect to their work for the Company.
- Full cooperation with ongoing external investigations.
- Enhancing concern management program to create program that ensures timely, independent and thorough internal investigations of alleged misconduct while fostering a speak-up culture.
- Requiring that all complaints or incident reports concerning compliance matters and involving current officers (vice presidents and above) be reported to the Audit Committee.
